- Multi-tasking is made far easier!**  
 Imagine you can browse a webpage on your primary monitor, doing word processing on a second monitor, while playing a DVD on the third monitor. Just plug in the HIS Multi-View and a few extends your workspace by allowing you to connect up to 6 monitors to your laptop or desktop at the same time, via the USB 2.0 port. You can either mirror the primary monitor, or extend the screens to view more applications.
- Features and Specification**
- Support monitors, projectors and HDTV with VGA / DVI port
  - Add-on monitor, LCD or projector through a single USB 2.0 port
  - Supports up to 6 Multi-View adapters to work Simultaneously
  - Plug & Display
  - Hot-plug: add or remove monitor without system reboot
  - Up to 1600 x 1200 or 1680 x 1050 resolution
  - Windows Vista™ compatible
  - Smooth DVD playback
